Please give me an email for the person to contact by email, too, so I can follow up on questions for clarification. I am interested in a full break of the psychiatric services: C.1.8. UNIT & PSYCHIATRIC CARE. As a member of the media, the *Tyler County Booster*, I plan to write an article which will be the basis for part of chapter in a book.

Under the Open Record laws of Texas, I am officially asking for a who are heads of C.1.8, their contact information, org chart, list of all staff, their salaries, by unit too, their quarterly/annual reports; not just financial, I am also asking for the statistics on services to the spectrums/diagnoses of the DSM diagnoses—or however you diagnose—and preferably by unit as well as quarterly or annual services, or however the statistics are reported. Surely statistics are kept on *services* to the prisoners. I am not asking for the names of any prisoners, just the number and kinds of psychological/psychiatric services.

For instance, what services and how many are directed to Antisocial Personality Disorder, and so forth.

I prefer PDFs or Excel of all for the last fiscal year, as they are easier to use and do not need paper copies. There is nothing confidential expected. Thank you very much.

Sincerely,

Mr. Maness:

Attached are the responsive documents to your request for information under the Texas Public Information Act served on the University of Texas Medical Branch (“UTMB”) for information regarding the C.1.8 report, specifically related to psychiatric care.

Included in the responsive documents is a listing of all employees in the Mental Health Department of Correctional Managed Care. Also included is a monthly average Serious Mental Illness (“SMI”) report for the time period July 2020 through June 2021. The SMI includes those patients with a diagnosis of Psychosis, Schizophrenia, Bipolar, and Depression.

Because there were minimal documents provided, there is no charge for this request. UTMB has established a time limit allowed by Texas Government Code Section 552.275. Because your request does not qualify for labor charges under the law, the labor required to comply with your request will be counted against your individual 36-hour limit.

FY 2021 labor totals:

Thank you Becky,

Just the most recent of each, prefer Excel or PDF.

If there are quarterlies, for the most recent FY.

Or, as with some from TDCJ like history screens, a screenshot.

At the risk of sounding odd, just looking for data on all things done.

Especially numbers of prisoners diagnosed each of diagnoses in the DSM.

Numbers esp. of Anti-Social Personality Disorder. Numbers regarding psychiatric care. Numbers on psych. meds.

Treatment modalities, numbers of sessions, and they might have a list by unit.

For instance, the Lewis Unit might have several, because of its High Security, and Goodman none because it is a transfer facility.

Someone from each prison is sending reports, etc., data collections, to someone.

And someone must be collecting them for someone.

Just the most recent of each.

Since retiring, I have written dozens of articles to a few papers.

So it is appropriate to say I am reporter looking for the basic data and scope of data on the psych patients and their treatment in TDCJ for an article on that. Maybe I should have said first.

Just the most recent of each report and data sets on numbers.

Thank you very much.

Very sincerely,

Michael G. Maness

Becky,

I am not trying to be a pain.

I have been doing OR requests for decades, and at times it still is a learning process, sometimes for both of us.

I do realize UTMB has no obligation to create reports. Likewise, if I do not the specific names of reports that ARE made, there is an obligation to provide those from a transparent agency.

I am seeking reports or records that tally the psychiatric care provided on the C8 line.

I do not know what they may be called, but someone does.

The number of prison therapy groups, kinds of therapy groups, even number of prisoners on Thorazine, number of prisoners diagnosed at Anti-Social Personality Disorder (ASPD)—and whatever—somewhere, someone is collecting those.

In other words, when I worked on the Gib Lewis Unit, our high security had to psychologists that did group meetings once or twice a week. They reported those meetings.

I am not asking for any prisoners names, which would be confidential.

But I am writing a research paper to publish. It is inconceivable that UTMB contracted psychiatry services have nothing, no statistics, reported to the chief over the C8 budget or medical director.

Surely, there is a report somewhere of the ASPD and PTSD, numbers of therapy group meetings, numbers on how many are on psych meds for personality disorders, other disorders, and psychoses.

Or, is the answer to the public on the psychiatric care by UTMB, "Sorry, we do not know what we are doing in TDCJ"? That is not sarcastic. That is very serious. I am asking for copies of the reports or copies of the MS Excel spreadsheets created for those who supervise psychiatric care.

Or, is the answer to the question, "How many in TDCJ under UTMB psychiatric care are diagnosed with ASPD?" a simple answer from the chief medical director, "We do not know."

Becky, Texas and UTMB provides some quality care. I worked with several UTMB doctors during my 20 years. I do not know what they report. But but a first-class outfit has someone, somewhere receiving and cataloging, as in an MS Excel worksheet, the number of Thorazine patients, and other kinds of psych patients. Someone reports those numbers. And law requires one to forward to the department of one who knows, which may be complicated, and the spirit of the law expects a good faith effort. Maybe this is the first time in UTMB history that anyone has asked, which is all the more important. That no one to date has expressed an interest in the number of Texas sons and daughters in prison who are diagnosed with various psych disorders, etc.

Please help me find those reports or data sets or spreadsheets that SOMEONE is looking at.

Sincerely,

Michael G. Maness

Your email below does not address the inquires noted in the request for clarification that would enable UTMB to respond to your request.

As stated below, C.1.8 is a line-item reference within the contract between TDCJ and UTMB, not a department, and it is unclear whether you are seeking information related to all health services provided to TDCJ inmates by UTMB CMC under the contract related to C.1.8, or only Mental Health services provided to TDCJ by UTMB CMC under the contract related to C.1.8.

The Texas Public Information Act (“TPIA”) does not require governmental bodies to provide answers to general inquiries. It simply requires that governmental bodies make available information they collect, assemble, or maintain. Nor does it require a governmental body that receives a request for information to create information that did not exist when the request was received. *See Econ. Opportunities Dev. Corp. v. UTMB has made a good-faith effort to relate your request to information that is within its possession or control. *See* Open Records Decision No. 561 at 8-9 (1990).

Without clarification from you, we are unable to determine the information that is responsive to your inquiry.

Thank you Becky,

What does UTMB provide to TDCJ in that line item ... **UTMB identified as "C.1.8"???**

UTMB is contracted with TDCJ for its medical and that line item.

I am looking for any kind of data on DSM reports on personality disorders and statistics on treatment of psychiatric prisoner patients in TDCJ. Goodness, please do not take this sarcastically, but what is TDCJ funding in that line item of its budget if not medical care.

When I asked TDCJ, they said they contract out to you, UTMB, for that. If not you, then who?

Sincerely,
